REPORT.

The often-repeated injunction of the Holy Apostle, "In everything to give thanks," may be specially addressed to associations, which have for their end the glory of God, and the salvation of men, by the maintenance and extension of true Religion. The Committee, therefore, of "The Newfoundland Church Society" established for those holy purposes, would commence their Annual Report by rendering to HIM, to Whom all praise is due, their devout and grateful acknowledgements for the mercy and goodness which have attended the operations of the Society during the past year.

It would be gratifying to the Committee, were it in their power to state the results of the collections in the several Missions of the Diocese for the current year. But as many of them have not been completed, and consequently the Returns have not been yet received, the Committee can only refer to the account of the Treasurer for such information as can at present be furnished on this point. A comparison of the payments for the years 1847 and 1848 respectively exhibits for the latter year an increase of about £100. Collections for the first time from several Missions afford an encouraging assurance that the residents within them are not unwilling to acknowledge their obligations to the Church, by whose Ministry they are adopted, trained, and nourished as the Children of God. Such remarks however, must not be construed as either stating or implying, that in any Mission in the Island this sacred duty is yet adequately recognised; everywhere the payments fall below the small weekly average, which formed the basis of the calculation of what the Members of the Church should, and, it is believed, could, do towards her temporal support.

Since our last Anniversary the Lord Bishop has communicated to such of the Clergy as were interested in the matter, that "the Society for the Propagation of the Gospel" have been induced by his representations to continue their former allowances to their elder Missionaries in this Island. His Lordship has, at the same time, informed the Clergy that he interposed with great reluctance, and expressed to them his expectation and most earnest hope, that the generous treatment of the Society will not occasion any relaxation of effort on their part to obtain from their own Flocks the support to which they are entitled. The following is an extract from his Lordship's Circular to the Clergy, which will fully explain his feelings and wishes :—

"The only reluctance felt by me in urging these reasons, and I think I may venture to say the only reluctance felt by the Committee in allowing them, and complying with my suggestions founded upon them, had reference 1st, to the state of the Society's funds, which are not adequate to the continually encreasing demands upon them, and 2ndly, to the grievous disappointment which will be experienced in several destitute places in the Diocese, where the people were looking to the proposed reduction for help in providing themselves with the Ministers and means of grace. On both these grounds I confess to have felt some reluctance in arguing against the reduction, but on the second ground more particularly. And I confidently anticipate that you will feel with me, and for me—that you will deeply regret the sad destitution in which so many of your fellow-colonists and fellow-Christians must be left ; and which might in some measure have been relieved, had the Society been enabled to carry out, through the encreased contributions of your long and largely assisted Mission, their merciful plans, and to devote the amount saved from your salary to the places most destitute. That, you are aware, was the chief, I might say the only, object of the proposed reduction, viz. to extend the bounty and blessings of the Society to people perishing for lack of knowledge. For this good and great object the Society, not unreasonably, I think, looked to

the more populous and ancient Missions to make up to their own Clergyman the amount to be taken from his salary. And I would now entreat of you and your people that keeping this object continually in view, you will be prepared to give it full effect in more prosperous times ; and, that, in the meanwhile, you will use every exertion to enlarge the income of our Church Society. The contributions of the people to the Church Society are, or should be, for the maintenance of yourself and your brethren in the Ministry—to repay you in some measure by their worldly things, for sowing unto them spiritual things. And thus while performing a most sacred, necessary duty to you, they would divide the bounty of our kind friends and supporters in England with others who have not yet experienced it. I entreat you, then, again for your Brethren's sake, and for CHRIST's sake, to pursue and promote to the utmost the plan of general collections propounded by the Church Society. Think, that by the average contribution of 5s. a year, from each member of our Church in the Colony, some giving less, some more, you might both receive the greater part of your maintenance from your own flock and people, instead of from strangers, as both reason and Scripture require, and might send the glad tidings of salvation and the means of grace to many who still are destitute and forsaken, "as sheep having no shepherd." Surely if your people have learnt to value these blessings, they will desire to make this acknowledgment for them to God and to you ; surely they will provide according to their means, that others shall be partakers of their privileges."

The continued liberality of the Society calls, indeed, for our renewed thankfulness to the Venerable Body which has so long and so liberally fostered our Church. But, however much we rejoice at it, for the sake of those who amid many discouragements and difficulties are labouring in this part of the Lord's Vineyard faithfully and diligently, it would be a cause of deep regret to the Committee, and surely, to every sincere Churchman in the Colony, if it shall have the effect of reviving the neglect of those claims, which services rendered give

those who perform them, on such as are, or may be, benefitted by them. In contemplating a reduction in their stipends to the Clergy in the elder Missions, "the Society for the Propagation of the Gospel" desired chiefly to extend aid to destitute people and places; and as the means at its disposal do not allow of any increase of its expenditure in and for this Diocese, those destitute people and places can only be helped and supplied in proportion as the payments made to our local Church Society augment the Funds, which, under the direction of the Bishop, are appropriated by the Committee.

It should be distinctly understood that the stipends of all the Missionaries appointed since the year 1845, are on the reduced scale,—i. e., of one half only of those previously in Priest's Orders; and from that date the following additional Clergymen have been employed—viz: two in Placentia Bay, five in Fortune Bay, one on the coast of Labrador, and one in St. John's. Catalina in Trinity Bay, and Island and Bishop's Coves in Conception Bay, have now the benefit of resident Clergymen,—places which before enjoyed only Sunday-services performed by Ministers living at distances of from eight to ten miles, and engaged every week-day in scholastic duties. Catalina is indebted for this privilege to the Church Society; for by the appropriation of £50 a year of its funds to the Clergyman at Bonavista, the Bishop has been enabled both to relieve the Rev. Mr. Netten from the charge of a School, and to locate him in his Mission.

Every year brings to our knowledge fresh, and still more painful reports of the religious wants of our Brethren. The statement of the recent Visitation of the Lord Bishop, which has just been published, can scarcely fail to awaken the sympathies, and to call forth the co-operation of every Christian heart and hand. Settlement after settlement, occupied mainly, if not entirely, by Members of the Church of England, yet year after year left without her means of Grace—people, passing from the cradle to the grave, with scarcely a single opportunity of learning the things which concern their everlasting peace,—and as the consequence, the impressions and influences even of traditionary religion dying out! The prospect of some

aid being extended to places thus circumstanced, which the Resolution of "the Society for the Propagation of the Gospel" to transfer their liberality from the established Missions to new ones opened, has been again closed up by the abandonment of that purpose. There seems to be neither hope nor way of extending the ministrations of the Church to those, whose relief the Society contemplated and desired, except by the charity of such as have learned their preciousness by having possessed them, and that, without much cost and charge to themselves.

The importance of such Visitations as the Bishop of the Diocese has performed during the two past summers, along the coast of Labrador, and the western and northern shores of this Island not previously brought under Ecclesiastical inspection, it would be difficult to exaggerate; and the Committee feel that the Church at large, as well as those who have been the immediate objects of his Lordship's care, have been laid under a heavy debt of obligation by his labours. It must be plain that a voyage of such an extent, and occupying nearly sixteen weeks, cannot have been prosecuted without considerable expense: and the Committee are confident that every member of the Church Society will cordially approve of their having requested his Lordship to allow them to appropriate the sum of £100* towards meeting that outlay. The only regret will be that the funds of the Society do not admit of a larger appropriation to such an object. The Bishop has paid to the Treasurer the fees, Sacramental collections, and donations, received on the Labrador, amounting to £8 15 9.

It is with much pleasure and thankfulness that the Committee state that the Lord Bishop of the Diocese gave Confirmation to about 800 candidates on his late Visitation of the Northern Missions in this Island;—a somewhat larger number than were presented by the Clergy for that Holy Rite on the former Visitation. In the Appendix to this Report will be found a statement of the many

* The Bishop, whilst feeling and acknowledging the kindness of the Committee in voting the above sum of £100, has declined to receive more than £50.

places visited, and of the Episcopal Services performed, by his Lordship during the past summer.

The proposal of the Government to close the various places of Burial within the limits of the Town, adverted to in the Report of last year, has been carried into effect ; and the Members of the Church of England have a Cemetery as conveniently situated, at the eastern extremity of the City, as it is commodious in itself, and in every respect well adapted to the solemn purposes to which it is applied. It was consecrated by the Lord Bishop on the 25th of last June, a few days before the Act of the Legislature came into operation prohibiting all interments within the Town after the 1st of July. It had been previously inclosed and protected by a substantial fence; the necessary roads had been cut through it, and a lodge for the residence of the sexton erected. The public access to it, conveyed with the ground itself, was of that character, that the Bishop deemed it desirable and right to obtain a better and more decent approach. His Lordship succeeded in purchasing a right of way to the Cemetery of the Executor of the late Judge Carter, for the sum of £40. The cost of fencing, and otherwise preparing it, amounted to not less than £25 more. The road is now the private property of the Bishop ; it is manifestly very desirable that it should belong to the Parishioners, and the Committee have determined on offering to re-imburse his Lordship for his expenditure for it, with the view of acquiring the right of way for the Members of the Church for ever, and having it invested accordingly in the Bishop and his Successors in trust, in the same manner as the Cemetery itself.

The progress made with the erection of the Nave of the Cathedral Church during the past season has been very satisfactory. There appears no longer any reason to doubt that it may be sufficiently advanced for Consecration and use in the course of next summer. The wish and present intention of the Bishop are to set it apart by the appointed Holy Services so that he may hold his next General Ordination in it, and his Triennial Visitation of the Clergy in the year 1850. The cost of that portion of the edifice which has been built will,

with the further expenditure necessary for the interior, have consumed all the funds at the disposal of the Bishop. On every account it will be a matter of painful regret, if the works are not continued. For such as are going on to completion, it will not be forgotten, that we are indebted to the generous sympathy of our brethren at home. This circumstance and the sense of our own duty will, it is hoped, lead to such liberality on the part of the Members of the Church, as will enable the Bishop to proceed with other parts of the projected structure.

The Depository for the Sale of Bibles, Testaments, Prayer-books, and the Publications of "the Society for Promoting Christian Knowledge," has been in operation, as heretofore, during the past year. The following are the particulars of the issues from it, from the date of the last similar statement :—169 Bibles, 140 New Testaments, 853 Common Prayer-Books, 1363 other works and Tracts. Thus the issues during the period of 2 years and 4 months, *i. e.* since the re-opening of the Depot in August 1846, have been 393 Bibles, 316 New Testaments, 1907 Prayer-Books, and 3966 Bound Books and Tracts. Every book issued from the Depository is *sold*. All must be sensible of the importance of the people being supplied with religious reading of a sound and approved character, and it is a cause of thankfulness that such Books, as are published under the authority and sanction of a Society, of which the Primate and other Prelates of the Church are the Directors, have been so extensively circulated in this Colony. The expenses of the Depository, including those of importing Books and an annual rent, have been hitherto borne by the Bishop. The Committee feel that this would be a legitimate object to which to appropriate some of the funds of the Church Society. The supply of Bibles, Prayer-Books, School-Books, and Religious Works and Tracts, is one of the objects contemplated from the commencement of the Society as will be seen by a reference to the 7th Standing Rule. In connection with this point, the Committee would again call attention to the circumstance, that the Church Society includes in its designs and operations the objects

of a Clerical-Aid, a Bible, a Prayer-book and Homily, and a Religious Tract Society.

In looking forward to the future claims and wants of the Church in this Diocese, no object of more vital consequence presents itself to the view, than the great work of Education. The establishment and support of Daily and Sunday Schools has also been proposed from the beginning, as one of the objects of the Church Society; and to this the attention of the Members of the Church must shortly be invited, and their co-operation asked. The approaching expiration of the Act for the promotion of Education seems to offer a suitable occasion for bringing the question of Church-Education before the Legislature, and urging upon their favourable consideration the claims of the Church.

The Committee, in bringing this Report to a conclusion, will only add the expression of their conviction, that nothing is wanting, under the Divine Blessing, but united and vigorous action on the part of all who are in Communion with the Church, to secure the accomplishment of what has been, as well as of what has yet to be, undertaken. He, Who is not the author of confusion but of peace in all the Churches of the Saints, will look down with an eye of favor on, and will prosper the designs and exertions of those, who "stand fast in one spirit, with one mind striving together for the Faith of the Gospel." (Phil. i, 27.)

APPENDIX.

*To the Most Reverend the President,
the Right Reverend the Vice-Presi-
dents, and the Members of the Standing
Committee of "The Society for the
Propagation of the Gospel in
Foreign Parts."*

We, the President, the Officers and Committee, and all the Members of the "Newfoundland Church Society," assembled at our Annual General Meeting, desire most respectfully to tender, through your Board, to "The Society for the Propagation of the Gospel in Foreign Parts," a renewed expression of our sincere gratitude for the many invaluable benefits which have been conferred by their instrumentality, during nearly a century and a half, upon the Church in Newfoundland.

It is believed that there is hardly a Church or a Parsonage-House in the Colony, towards the erection of which the Venerable Society has not contributed;—the Clergy, whose ranks have been from time to time re-inforced and augmented, have been mainly supported by the Society's liberality; and we and our Brethren supplied thereby with the means of Grace and Ordinances of Religion in the purity which distinguishes the Faith and Discipline of the Church of our Fathers.

While we feel that no words of ours can discharge or express our debt of gratitude for such incalculable benefits, it is yet both a duty and a pleasure to declare and renew our acknowledgments ; but chiefly, on this occasion, we would record our grateful sense of the consideration of the Venerable Society in rescinding their Resolution, passed in 1846, to reduce by one-half, the stipends of their elder Missionaries, with the view of extending the blessings of the Gospel, and the ministrations of the Church, to the many settlements in this Diocese, whose inhabitants are still as "sheep not having a shepherd."

We are not ignorant, therefore, at what immediate cost to many of our destitute brethren this course has been adopted ; and we humbly trust that those members of the Church in this Diocese who have long enjoyed her ministrations, through the liberality of the Society, will show their appreciation of them, and their charity to those many others not yet similarly favoured, by making every exertion to effect the object which the Venerable Society contemplated by the proposed reduction ;—to this, in dependance on His Grace, Who directeth and disposeth all hearts, we pledge ourselves.

We conclude with an earnest prayer to Almighty God, that it will please HIM to continue His Blessing to the Venerable Society, that it may be, as heretofore, an instrument of good to His Church, for JESUS CHRIST'S sake. *Amen.*
